The story of a young black student's journey towards true love. Insightful and funny, an excellent read.

"Soup" doesn't wanna be a "soft brother" hooked up with a white girl, *but damn his white girlfriend is cool, and fine!* His so-called liberal college is politicized to the extreme, with a variety of interested parties insisting that he color-coordinate-date, and so he punks out and dumps his girl, and in the process learns about love, life, and the choices we make.
